

PARIS PLACARDS TORN DOWN

THE POLICE REMOVE POSTERS CALLING ON THE PEOPLE TO RISE.

Further Revelations in the Panama Scandal to Come—Gen. Sausser Has Taken Care to Prevent an Outbreak in Paris—Young De Lesseps Said to Have Agreed to Turn State's Evidence to Save Himself.

PARIS, Jan. 6.—Several newspapers this morning reported the arrest of more Deputies and Senators on next Monday. The police were busy between 1 and 3 o'clock this morning destroying incendiary placards posted by anarchists. These placards called upon the people to rise at once, seize arms, destroy their corrupt oppressors, and seize the reins of government.

A feeling of alarm was apparent throughout the city last evening, and is likely to increase to-day in consequence of the prophetic words of the press, which predicted that the Deputies and Senators would be arrested on next Monday. The police have taken every possible precaution. The city would be safe were it not for the general conviction that the Government is playing fast and loose in the Panama matter.

It is reported that the determination of the Government to proceed to arrest the Deputies and Senators on next Monday, has been reached by the President, M. Carnot, after a long and difficult struggle. The President is said to have been influenced by the fact that the Deputies and Senators are playing fast and loose in the Panama matter.

The charges against M. Bihui have aroused great interest. M. Bihui is a Frenchman of important influence upon the course of the Government in regard to the Panama Canal. He is said to have been influenced by the fact that the Deputies and Senators are playing fast and loose in the Panama matter.

Yesterday a lying document, which has given birth to an abominable calumny, was published in the Paris press. It was a document which was said to have been written by M. Bihui. It was a document which was said to have been written by M. Bihui.

M. Delahaye publishes this morning a letter to the press, in which he says that he is a Frenchman of important influence upon the course of the Government in regard to the Panama Canal. He is said to have been influenced by the fact that the Deputies and Senators are playing fast and loose in the Panama matter.
